Softlink Options Limited

Nairobi, Kenya.

Dear Madam,

**RE: Application for the Position of Junior Web Services Developer.**

I am writing to express my interest in the Junior Web Services Developer position that was recently advertised internally. As a current Junior Software Developer Intern at this company, I have been fortunate to work on several exciting projects that have strengthened my skills in web development, teamwork, and problem-solving.

Over the past few months, I have contributed to building and maintaining websites and applications using WordPress, ReactJS, Python, Node.js, Flutter, and Odoo. I also assisted in debugging and troubleshooting issues, improving system performance, and collaborating with the sales and customer support teams to resolve client challenges on time. One of my proudest achievements was working on the Eden Kenya E-commerce website, where I applied SEO and WordPress optimization to boost client visibility and engagement.

I am comfortable working with tools such as MySQL, PostgreSQL, Github, and Git, and I enjoy using Agile practices like Scrum and Trello to organize and deliver work efficiently. I also have a growing interest in business process automation through Odoo, which I believe aligns well with the company's development goals.

I truly value the supportive and innovative environment at Softlink Options and would be grateful for the opportunity to continue contributing as a full-time Junior Web Services Developer. I am confident that my technical skills, commitment to learning, and collaborative spirit will allow me to add value to the team and our ongoing projects.

Thank you for considering my application. I look forward to the opportunity to discuss how I can continue contributing to the success of Softlink Options.

Yours sincerely,

**Korir K. Julius**
